

POST ROCK Scenic Byway

Facing page — **Bowl Plaza** in Lucas is not an ordinary public restroom. But then, Lucas is not an ordinary town. The toilet-shaped structure is filled with puns both verbal and visual, the kind of art one expects in the Grassroots Art Capital of Kansas. Above — M.T. Liggett's totems "**Homeboy**", "**Nereus**" and others line part of S. Harvest Street.

Ron and Clara Miller built rock houses and mountains, sculptures of places they had visited. After 40 years of exile, the sculptures came home to **Miller's Park** next to the **Garden of Eden** in Lucas.

No town accomplishes quirky and offbeat quite like Lucas, the northern end of **POST ROCK SCENIC BYWAY**.

The **GARDEN OF EDEN** started Lucas on its path to "*Grassroots Art Capital of Kansas*". For certain, no town has public restrooms like **BOWL PLAZA**.

The **GRASSROOTS ART CENTER** gives a good taste of what Lucas has to offer, but don't stop there. The entire town is filled with grassroots art attractions.

WILSON LAKE, "*The Clearest Lake in Kansas*" and an angler's paradise, is south of Lucas. In **WILSON STATE PARK**, ride the world-renowned **SWITCHGRASS MOUNTAIN BIKE TRAIL**.
